

Please do not "weaken" the strength of the New Jersey "DO NOT CALL" list. I am one resident who does not want to receive a call from a company, regardless when the last time I've conducted business with them or not. The eighteen-month timeframe should not be considered an "exemption" from this law. I do not want my family life interrupted by telemarketers. If I am in the "market" for their product, I will contact them.
